## Specification Sheet

Chemical name: S-trityl-poly(L-glutamic acid sodium salt)

CAS number: 26247-79-0

Catalog item: TS-PLE<sub>50</sub>, average MW 8100

Catalog number: 000-TSE050

|                           |                                     |
|---------------------------|-------------------------------------|
| Appearance                | White to faint-yellow solid         |
| Solubility                | Clear solution at 50 mg/mL of water |
| Identify by NMR           | Conforms                            |
| Quantitative analysis (%) | Na=11-16                            |
| PDI by GPC                | 1.00-1.20                           |
| MN by NMR                 | 7300-8800                           |
| DP <sub>n</sub> by NMR    | 45-55                               |
| S-Trityl substitution (%) | 95-100                              |
